ACHIEVEMENTS

- Keen to help others when possible, volunteering to clean my home town and tutor fellow classmates through complex math courses.
- Left Belarus in 2014 and 2017 to explore Israel, developing a close bond with the country.
- Enjoys building strong cross-cultural communication skills through traveling to place such as Austria and Vienna.

CORE SKILLS

- Problem solving
- Effective communication
- Time management and multitasking
- Attention to detail
- Emotional intelligence
- Perservance

SOFTWARE SKILLS

- HTML5
- CSS3
- React/Redux
- Javascript
- NodeJS
- Express
- MongoDB
- Github

HOBBIES

- Walking
- Coding
- Gaming

ABOUT ME

A driven full-stack developer whose experience covers Israel and Eastern Europe. Has worked with a variety of programs before, building single page applications. Has completed many additional courses to improve developer skillset and even was requested to return and teach certain courses. Also has experience managing people as a department manager in commerce, developing strong team and leadership skills.

WORK EXPERIENCE

- **Practicum100 by Yandex** 2022
Senior Student
 - This was an 8-month web development bootcamp offered by one of the top web companies in Eastern Europe.
 - Learned interactive application design using React.
 - Learned Redux to manage complex UI. Also, Express, NoSQL and MongoDB.
 - Asked to remain on as a teacher after I finished. Developed strong leadership skills mentoring 70 students, debugging their projects and educating them.
- **AVA MIND** 2022
Web Developer
 - Created this startup during the 'Code 4 Ukraine' hackathon.
 - Took a leadership role in designing project roadmap and ensuring key stakeholders were aligned through the development process.
 - Led the development process using ReactJS and added multi-language support using Context API, and validation and data transfer to Heroku.
- **Tiv Taam** 2021-2022
Department manager
 - Team-leading and logistics role in a dynamic context.
 - Organized and delegated work, facilitated productive collaboration with other departments.
 - Building relationships with suppliers to secure best prices and services.
 - Managed a team of 6, defining their goals and helping them develop.
- **Sales Manager** 2018-2022
 - Oversaw sales and relationships in a chain of stores.
 - Hitting targets, innovating on the sales process and taking initiative to secure the best contracts.

EDUCATION

- **Economics and Enterprise Management** Graduated 2017
Polotsk State University (PSU)
Additional Courses:
- **Aducar - Web Development program** 2018-2019
6-month program teaching main aspects of web development. Learned HTML, CSS & Javascript.
- **Masa Web Design program** 2017-2018
8 month web design program.

PROJECTS

- **News-Explorer**
 - Built a Social News Aggregator SPA.
 - News search engine that allows users to find specific articles by text search. Also developed a log-in system where users could save their favorite articles.
 - Developed this using Express server, React.js frontend and JWT for authentication.
 - Backend uses ORM and MongoDB.
 - Learned strong multitasking skills trying to execute multiple technical elements at once.
- **Around US**
 - Single page social network SPA.
 - Developed an innovative social network that allows users to add, interact with and edit photos and bios.
 - Built on Express, with a Rect.js front end and JWT for user authentication. Backend uses an ORM model to model and MongoDB too.
 - Developed the ability to self-teach myself key skills needed for projects to move forward.
