PROFILE

Il'm a results-oriented, and highly motivated FullStack Developer experienced in writing single-page
applications using React JS and building RESTful APIs using Express and MongoDB. A Passionate and
fast learning team player, I am looking to join a team where we can conquer new heights.

SKILLS

HTML5 | CSS3 | React/Redux | Javascript | NodeJS | Express | MongoDB | Github

PROJECTS

NEWS-EXPLORER

A Social News Aggregator SPA
- A News search engine where articles across the web can be searched for by text. Users can also register & login to save their favorite articles.
- Built using **Express** on the server, a **React.js** Frontend, and using **JWT** for user authentication. The Backend uses an **ORM** to model the different business objects and persist them to **MongoDB.**
- The site is hosted on **GCS** servers.

AROUND US

Single page social network SPA
- A social network allows registered users to add, like and delete photos, as well as edit their bio.
- Built using **Express** on the server, a **React.js** Frontend, and using **JWT** for user authentication. The Backend uses an **ORM** to model the different business objects and persist them to **MongoDB**.
- The site is hosted on **GCS** servers.

EDUCATION

WEB DEVELOPMENT PROGRAM
Practicum100 (By Yandex) | 2021 - 2022

An 8-month online Web Developers program. Learned to design interactive applications using React, and use Redux to manage complex states in the UI. Learned to develop RESTful APIs using Express and work with NoSQL databases using MongoDB.

WEB DEVELOPMENT PROGRAM
Aducar | 2018 - 2019
- A 6-month program designed to teach the main aspects of web development. Learned HTML, CSS and Javascript.

WEB DESIGN PROGRAM
Tlalim Masa | 2017 - 2018
- 8-month program Web design

BA DEGREE, ECONOMICS AND ENTERPRISE MANAGEMENT
Polotsk State University | 2012 - 2017
